- Percentage: 79%

SSLC | KLS English Medium High School

📅 2017   📍 Belgaum, India
- Percentage: 85%

PROJECTS

Event Scheduler Site

- Developed an Event Scheduler Site using HTML, CSS and JavaScript for the front end and Django for the back end.
- It helps users to add their events to the calendar. Also, the users can check their running and upcoming events.

Notes App

- This project is created using React which allows users to add their todos and delete them.
- This project makes use of localStorage to store the todos added by the user. Also, the user can search for the todos.

Online Voting System

- Worked on a DBMS mini project. It serves as an automated voting system for an organization. This system works like the common manual system of election voting system.
